When Map Quality Matters®

Powerful geospatial mapping tools for Adobe® Creative Cloud®
and offline map solutions for mobile devices

Avenza
SYSTEMS INC.

When Map Quality Matters®

We're focused on creating powerful mapping software that facilitates design,
publication, and spatial imaging. Organizations and individuals use MAPublisher®
and Geographic Imager® to create maps to help solve real-world issues.
Users consume high-quality cartographic products created and sold by publishers
through the Avenza Maps® app and Map Store.

We offer academic and non-profit pricing on all of our mapping solutions.

MAPublisher®

Powerful cartographic design and GIS tools for Adobe® Illustrator®

ABOUT

Create beautiful maps with MAPublisher using geospatial and mapping tools designed to work seamlessly in the Adobe Illustrator environment. Complete your cartographic production and workflow—from raw data to publishing a high-quality map—and everything in between.

Easily and quickly import a wide variety of data formats, create high-quality map products, and export data to different file formats or publish to print and digital formats, including web maps and maps for mobile devices.

SOLUTIONS

Government, private-sector, and academic organizations worldwide rely on Avenza mapping products to help create and use accurate and content-rich maps from geospatial data, including the following sectors:

Forestry and Agriculture	Law Enforcement
Infrastructure	Utilities
Academic	Travel and Tourism
Publishing	Oil and Gas
Public Safety	Military and Intelligence

FEATURES

Seamless Integration
MAPublisher panels and tools seamlessly integrate into the Adobe Illustrator interface

Import and Export Data
Supports major GIS formats including Esri, Google, AutoCAD, MapInfo, FME Desktop

Transform and Geoprocess
Extensive coordinate system support and design oriented mapping tools

Design and Label
Edit geospatial data and design maps using MAPublisher and Adobe Illustrator tools

Highly Compatible
Available as fixed and floating licenses and compatible with Windows and Mac

GEOGRAPHIC IMAGER®

Spatial imaging tools for Adobe® Photoshop®

ABOUT

GE◆GRAPHIC
IMAGER®

Geographic Imager enhances Adobe Photoshop to make working with spatial imagery quick and efficient. It adds tools to import, edit, manipulate and export geospatial images such as aerial and satellite imagery.

Compatible with Windows and Mac, enjoy the use of native Adobe Photoshop functions such as transparencies, filters, pixel editing, and image adjustments like brightness, contrast, and curve controls while maintaining spatial referencing.

Geospatial Interoperability
It's all about increased productivity for cartographers and GIS professionals. Quickly import various data formats, edit imagery, and export to usable formats.

Transform
Extensive support for thousands of geographic and projected coordinate systems. Easily transform between geodetic and projected coordinate systems.

Georeference
Georeference images easily by adding control points and assigning world coordinates interactively. Detect coordinate system to reference and rectify images.

Mosaic and Tile
Mosaic individual images to create a seamless image. Tile an image into multiple images by tile size or count and save them using sequential naming.

Start mapping with free trials of MAPublisher and Geographic Imager available on www.avenza.com

Offline maps to keep you on track

Publish and sell maps direct to mobile devices

Avenza Maps® is an all-encompassing solution for the use, distribution, and sale of offline maps to mobile devices. Easily discover and purchase maps that are created and sold by publishers from all over the world through the Avenza Map Store or load your own maps, including geospatial PDF, GeoPDF® and GeoTIFF.

Avenza Map Store
Browse, preview, purchase and download professionally created, high-quality maps. Sell and distribute your own maps.

Track Your Location
Use the built-in GPS in your mobile device to locate yourself on any map, even while offline.

Record Information
Plot placemarks including photos, record GPS tracks, add notes, and other attributes. Export and share data with others.

Make Measurements
Measure distances and areas in a wide variety of units. Save measurements as map features.

Download on the **App Store**

GET IT ON **Google Play**

LICENSING

Avenza Maps is free for recreational and non-commercial use. All other uses require an Avenza Maps Pro subscription.

Avenza Maps Pro

Enable your organization to distribute the Avenza Maps app across mobile devices, import Esri® shapefiles, access Avenza support and request app features and enhancements with an Avenza Maps Pro subscription. Empower your team to use proprietary maps in the field for navigation and data collection.
